EDUCATION

SAGI RAMAKRISHNAM RAJU ENGINEERING COLLEGE, Bhimavaram, Andhra Pradesh

Nov 2021 - Apr 2025

B.TECH. COMPUTER SCIENCE AND ENGINEERING, CGPA: 9.3

Relevant Coursework: Data Structures & Algorithms, Machine Learning, Artificial Intelligence, Software Engineering, Database Management Systems

TECHNICAL SKILLS

- **Programming Languages:** C++, Java, Python, C, SQL, JavaScript
- **Technologies:** Machine Learning, Python Libraries (Pandas, NumPy, Matplotlib), NLP, Artificial Intelligence, HTML, CSS
- **Concepts:** Object Oriented Programming, Software Engineering, Computer Networks, Operating Systems, DBMS
- **Tools:** Tableau-Data visualization, MS Excel, Power BI, Linux, Git
- **Soft Skills:** Leadership, Ownership, Event Management, Collaboration, Self-Driven

EXPERIENCE

Amazon - Hyderabad, India

Jan 2025 - Jun 2025

Software Development Engineer Intern

- Designed and integrated end-to-end integration tests for a key payment API, improving CI/CD reliability and reducing production failures.
- Migrated 5 services from legacy database calls to microservices-based architecture, enhancing data consistency.
- Implemented logic to identify financially inactive customers to support targeted business experiments.

PROJECTS

Data Consistency Enhancement for State Management - Amazon

- Improved data consistency by migrating services from legacy database calls to a centralized, reliable data source using **microservices** architecture.
- Contributed to read/write flow migrations, documented design plans, and collaborated with the team to deliver the solution.
- Integrated new data services to fix inconsistencies and modernized the tech stack with **JDK17** and updated infrastructure tools.

Tech Stack: Java, Spring Framework, Microservices, AWS services, Groovy, Low-level Design

Image-Based Multilingual Text Recognition and Voice Output System

[project link](#)

- Built a tool to extract text from noisy images, translate it to multiple languages, and convert it to speech for accessibility.
- Used **denoising techniques** (morphological operations, adaptive histogram equalization, Non-Local Means filtering) to improve clarity, Tesseract OCR, Google Translate, and Streamlit for a user-friendly interface.

Tech Stack: Python, Tesseract OCR, ResNet, gTTS, OpenCV, Streamlit

Image Captioning Using Pre-Trained Models

[project link](#)

- Developed a system to generate captions for images using the **VisionEncoderDecoderModel** from Hugging Face, integrating ViT for encoding and GPT-2 for decoding. Fine-tuned the model using the A3DS dataset, enhancing performance on specific images

Tech Stack: Python, Hugging Face Transformers, PyTorch, VisionTransformer (ViT), GPT-2, PIL, NumPy, Matplotlib

Credit Score Classification Using Machine Learning

[project link](#)

- Developed an intelligent system to classify individuals into credit score brackets (good or poor) using a dataset with 100,000 training tuples and 50,000 test tuples. Achieved an accuracy of 84.2% using the Random Forest algorithm by conducting comprehensive performance evaluation including precision, recall, and F1-score.

Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

TRAININGS

HyperVerge Academy - Remote

Jul 2024 - Jan 2025

Data Science, Fellow

- Learned and practiced skills in **SQL** for data querying, **Excel** for data handling, **Power BI** for interactive dashboards, and Python with Pandas for data cleaning and analysis. Explored data visualization techniques to communicate insights effectively.
- **Interpersonal Skills:** Attended daily standup meetings, where I presented my work, conducted PowerPoint sessions, and explained projects to a team of six alongside my mentor.

PMKVY Skill India - Remote

Oct 2023 - Nov 2023

Software Development Associate

- Gained comprehensive knowledge of the **software development lifecycle (SDLC)**, including planning, analysis, design, implementation, testing, and maintenance. Developed use cases and Entity-Relationship (ER) diagrams to structure and represent data, enhancing understanding of software design.

CERTIFICATIONS

- **Wipro:** Talent next certificate on Java Full stack
- **NPTel:** Data Structures And Algorithms Using Python, Data Science For Engineers, Foundation of Cloud Edge ML
- **Coursera:** Introduction to Data Analyst, Prompt Engineering for ChatGPT
- **Cisco Networking Academy:** Programming Essentials in Python & Cybersecurity Essentials
- **Google Cloud:** Google Cloud Career Launchpad - Cloud Engineer Track
- **AWS Academy:** Machine Learning Foundations & Cloud Foundations

ACHIEVEMENTS & EXTRA CIRCULAR ACTIVITIES

- Awarded **INR 50,000 Annual Merit Scholarship** (up to 4 years) under **AICTE PRAGATI** Scheme for academic excellence
- Achieved 5-star ratings in Python, C++, and Java on **HackerRank**
- Solved 190+ problems on **LeetCode** and 80+ on **GeeksforGeeks**
- Participated in **PRAJWALAN 2k24 Hackathon** and organized **Code Combat** event during NIPUNA Fest
